Ranch Name	Global ID	AW Number	# of Domestic Wells	# of Irrigation Wells
<i>Previous AW/Operation/ Ranch Name, if applicable **</i>	Irrigated Acres	APN	County	Crop

Total Acres Added

*Your Global ID number can be found by logging into your GeoTracker account. You may find the login page here: <https://geotracker.waterboards.ca.gov/esi/>. If you need a new login or password, there is a link below the login for resetting your password.

Once inside your GeoTracker account, click on “Edit Ranch Info”, you will find your Global ID number in the upper right hand corner (AGL0200XXXX).

**If this ranch is being transferred from another CCGC member, please include any information (if known) to assist CCGC in identifying the previous CCGC member to assure proper records maintenance.

If this acreage is not yet added to your eNOI please click on “Add Ranch/Farm to This Operation” once logged into GeoTracker and fill out the form completely. Only recently acquired parcels will be approved for enrollment into the Coalition, therefore it is important to update your eNOI before adding acreage to CCGC. Regional Water Board staff will approve all added parcels by checking that ranches are newly added to your eNOI.
